# Exact Online

Our integration with Exact Online offers a smart and efficient way to automate financial processes. By using Exact Online APIs, data is synchronised in real time. This ensures streamlined workflows, fewer manual actions and better insight into financial obligations.

## The benefits at a glance

### Efficiency improvements

Automation of time-consuming tasks such as matching and invoice processing.

### Cost savings

Reduction of administrative burden through process optimisation.

### Real-time insight

Always access up-to-date data for better decision-making.

### Compliance

Centralised data and an audit trail make regulatory compliance easy.

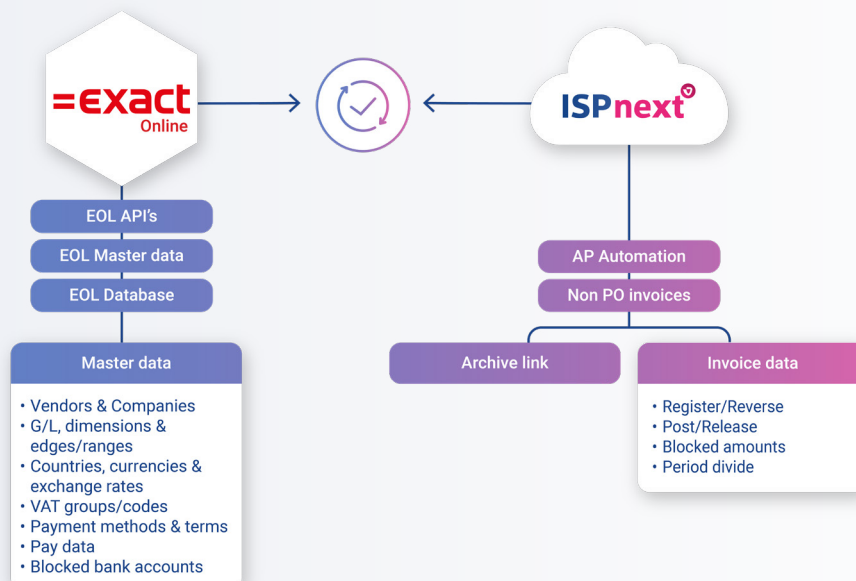

### Real-time integration

Automatically synchronises master data, financial entries, orders and receipts.

### Unburdening

Automating processes creates more space to focus on strategic tasks.

# Functionalities Exact Online integration

1

## Real-time data exchange via Exact Online APIs

The link between Exact Online and our solutions ensures seamless and real-time synchronisation of important data. This includes:

- **Master data:** Suppliers, companies, general ledger accounts, financial dimensions, VAT codes, payment terms and blocked bank accounts.

With this link, data always remains up-to-date, providing a solid basis for accurate and reliable financial processes.

2

## AP Automation

Our solution automates the entire invoice processing process. Non-PO invoices are processed efficiently and error-free, from registration to payment.

- **Invoice data:** Features such as Register/Reverse, Post/Release, blocked amounts and period divide support fast and accurate invoice processing.

*“Maximum efficiency and insight: seamless integration between Exact and Business Spend Management.”*

- John Schouten, **Director Product Management | ISPnext**

## Single Source of Truth (SSOT)

With automatic synchronisation of master data and invoice entries, SSOT is maintained in the ERP system. This ensures consistent financial reporting and prevents errors, fraud and incorrect payments. Approvers work directly from ISPnext, avoiding additional Exact licence fees.

# Conclusion

ISPnext integrates seamlessly with Exact Online, both on-premise and in the cloud. With real-time synchronisation of data, entries, orders and receipts, you minimise errors, increase efficiency and create a future-proof financial structure. This keeps your financial processes accurate, compliant and strategically focused.
